

YOYO trick VIDEOS!

All these slides are after for you guys to reference at home

Club rules:

Safety

- All school rules are still active during club.
- Playing with a yoyo is perfectly safe, but injuries can happen in an accident.
- In order to prevent injuries and accidents, yoyo's are to be used appropriately
 - No playing catch
 - No swinging

If I cannot count on a student to be safe, they will not be able to participate in the club.

Responsibility

If items that belong to Woodland Middle School or Mr. Eiseman are broken because of neglect or unsafe behavior, the item needs to be replaced promptly.

Failure to do so will result in the student not being in the club.

Involved

You are at club to have fun with a yoyo.

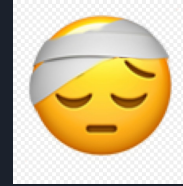

You are not at club to play games on your chromebook.

Can you listen to school appropriate music? Sure!

Can you watch youtube and play games during club? Nope!

Failure to follow expectations will result in the student not being in the club.

Safety

- It's common to hurt yourself on accident from time to time.
- When yoyoing, you have to make sure someone is far enough away so you don't hit them.

Do I need a yo-yo to join?

No! ...but I highly recommend buying one (or two!).

You can borrow one at the club, but you can't take it home.

I recommend two because

- getting one beginner one will help you learn quickly
- one intermediate one will do tricks better.

Questions?

Common Questions:

What do I do if the yoyo isn't working?

What do I do about the knot in the middle of the string?

Why can't I do this trick?!

This is too hard!?

What yoyo should I get?

Is there a wrong way to yoyo?

Common Answers:

- [Look here](#)
- Try untying it, but, most knots aren't a big deal right now. Don't let it keep you from playing!
- Some tricks are easier if you learn some other tricks at first though
- It takes patience, keep trying!
- Scroll to the bottom of the other presentation!
- No! (as long as you're safe, there is no wrong way.)

14. Sidewinder
15. UFO
16. Stop and go

My biggest tip:

Use a responsive one for these first tricks!

- Faster to learn tricks.
- More forgiving.
- Easier to learn.

You can use unresponsive for these tricks (except stop and go), I just don't recommend it.

At club, for the first 6-7 weeks, I only do responsive.

What's a trick?

1. Do something with a yoyo
2. Get it back to the hand
3. Be able to repeat the thing

That means YOU can make tricks up!

What's a combo?

-A bunch of tricks in one throw

But first.....

HOW TO put a yoyo string on

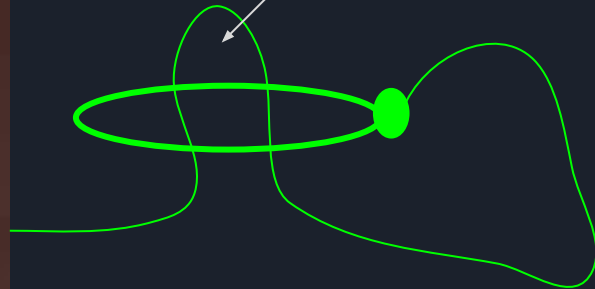

The only wrong way to yoyo?

Not wearing the string correctly

What yoyo should I get?

Some yoyos can be frustrating because it doesn't operate as easily.

- To clarify:
 - Not necessarily bad, they are just harder to use
- “frustrating” YO-YOS:
 - anything from dollar tree
 - This walmart yoyo
 - a original Duncan Imperial
 - a original Duncan Butterfly

If you can use them, you will improve your technique, but you will be limited on the tricks you can do

DOLLAR TREE

What yoyo should I get?

Tips:

These are good places to buy yoyos

- Not every yoyo on amazon is of good quality, so be careful!
- Read the amazon reviews! If there are no reviews, don't buy it!
- Plastic is great! Metal can hurt!
