HOW TO put a yoyo string on

String

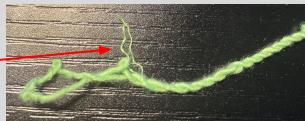

How to replace string

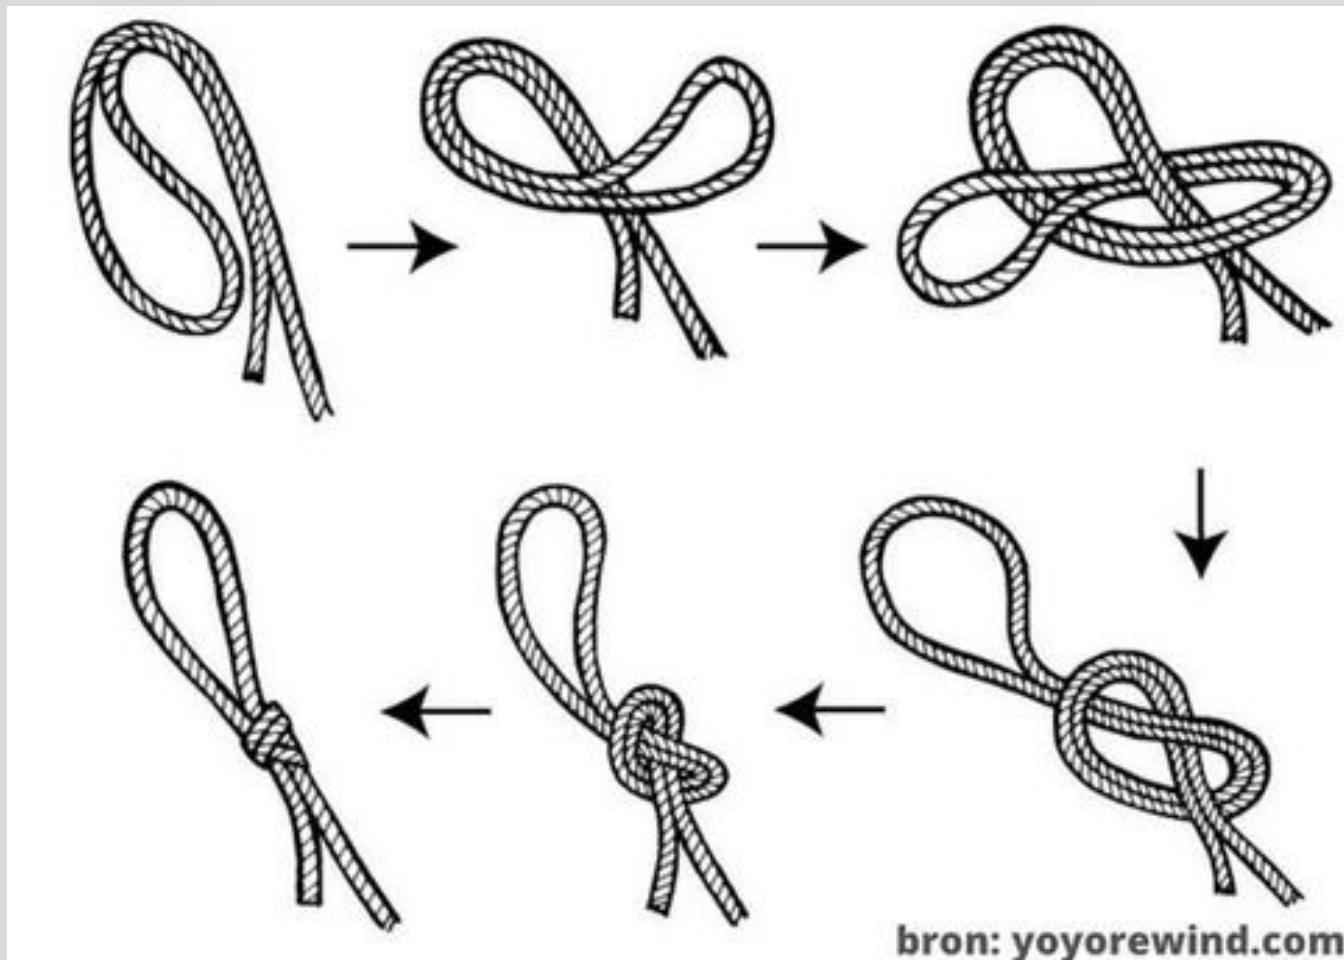

Need string? ask me! you can have 2-3 white strings for free whenever

A. How do you know when you need a new one?

- Replace it when it's gross, or it's fraying.
- It has a knots near the bearing of the yoyo (can be annoying) ->replace string then or untie the knot
- 1 or 2 knots in a string aren't a big deal, try to untie them before they get tight, or you can keep playing and ignore them

Questions?

Common Questions:

What do I do if the yoyo isn't working?

What do I do about the knot in the middle of the string?

Why can't I do this trick?!

This is too hard!?

What yoyo should I get?

Is there a wrong way to yoyo?

Common Answers:

- Look here
- Try untying it, but, most knots aren't a big deal right now. Don't let it keep you from playing!
- Some tricks are easier if you learn some other tricks at first though
- It takes patience, keep trying!
